AFRICA TRAINING Initiative

MEET THE AFRICA TRAINING INITIATIVE (ATI)

The Africa Training Initiative (ATI) is a WACREN-led collaborative capacity development programme that brings together technical communities across Africa to strengthen practical skills and knowledge.

ATI was created to develop the expertise needed to operate and sustain critical research and education infrastructures.

AFRICA TRAINING Initiative

WHY ATI MATTERS

ATI supports professionals working across areas such as:

- Network operations
- Campus networking
- Cybersecurity
- Trust and identity infrastructure
- Research and open science platforms

Because resilient digital infrastructure starts with capable people.

ATI is looking for Facilitators

Share Your Expertise. Multiply Your Impact.
ATI is inviting experienced professionals to join its growing Facilitator Community.

As an ATI Facilitator, you will:

- Deliver technical workshops across the research and education community
- Develop training materials aligned with real operational challenges
- Mentor participants and build the next generation of infrastructure experts
- Strengthen regional technical communities across Africa

Help shape the next generation of infrastructure experts.

AFRICA TRAINING Initiative

WHO SHOULD APPLY?

We encourage applications from:

- NREN engineers and operators
- University network engineers
- Cybersecurity professionals
- DevOps engineers
- Open science infrastructure specialists
- Experienced community trainers

If you have practical operational experience and a passion for knowledge sharing, ATI wants to hear from you.

Your expertise can create a lasting impact across Africa.

AFRICA TRAINING Initiative

APPLY TODAY

Join a continent-wide community committed to strengthening research and education infrastructure through collaboration and capacity development.

Apply: wacren.net/ati/call-for-facilitators

Deadline: 31 July 2026
